

CONGREGATIONAL CARE REPORT - 2018

The mission of the Congregational Care committee is to oversee events and occasions which involve members and friends of our congregation. To this end, we have strived to promote fellowship. We have held several coffee hours after the morning service of worship, and organized a very successful breakfast on World Communion Day on October 7.

The arranging and ordering the special flowers on the Altar for Christmas and Easter were done by the committee, with plants honoring those ill or unable to come to church.

We also published 10 newsletters over the course of the year in an effort to keep the church members and friends up-to-date with happenings in the life of the church and with their friends of the church.

In addition, we coordinated the gifts for a chosen family of six children at Christmastime, and, thanks to Linda Camp, sent get well cards, condolence cards, and thinking of you cards to our friends and members as needed.

The Congregational Care Committee would like to thank the many people who helped this past year to achieve their mission: ordering flowers, choosing gifts for the Christmas family, helping out with the coffee hours and the breakfast.

Those who are disenfranchised or otherwise separated from the church are a particular concern, and we would hope to reach out to other members of our community in the coming year.

Respectfully submitted,

Janet Dangler
Congregational Care Committee
